

It's is Xm's right to broadcast any and all tastful programing including traffic, weather, news music and talk radio. Xm-radio is competitive to public stations and offers better services -- that is what other stations and corporate broacasters are affraid of! By sensoring xm-radio you are choosing to violate my rights as a suscriber and a listener -- By deciding what I can listen too. Xm-Radio has worked hard to build a great service and something no other stations can offer.Do not let anyone disrupt or take away their american rights to a successfull product!
